for Friday, Oct. 30, 2020:  
Multitalented, gutsy and attentive, you often work in the service of a cause. This year, spend more time and energy on yourself and keep in mind the larger picture. You become top of your field. If single, prepare for a time of excitement and intensity in love, even when playing the field. If attached, your brightest love cycle is this year. Your partner is also successful. TAURUS never lets you go.

*Man is unsure of the future with his bi-curious fiancée*

**DEAR ABBY:** My fiancée and I are in our early 50s. We dated for two years and have been engaged for three months. She's a wonderful lady, and I can't imagine life without her.

I knew she was bi-curious a year ago when she told me one of her married female co-workers was flirting with her and she kind of enjoyed it. Since then, their relationship has grown, and they get together every couple of weeks for intimacy in our home. They have even asked me to join them, which I haven't done yet.

My fiancée insists she isn't a lesbian or bisexual and what she and her friend are doing is innocent fun, but I'm not so sure. So far, I haven't made an issue of it and go to bed at my usual time when her friend visits so they can have their fun. But have I opened Pandora's box by being so agreeable?

She promises no romantic feelings are involved, that her friend is no threat to our relationship and the two of them are just blowing off steam. Our love life is great, and she says nothing can replace us in the bedroom. Should I continue to look the other way? Or is this a fork in the road that could lead to a life of "anything goes"? -- **CONFOUNDED IN KENTUCKY**

**DEARCONFOUNDED:** This is not happening because you "allowed" it. It is happening because this is what your fiancée feels she needs. Not knowing her, I can't predict where she is on a Kinsey scale -- a one being entirely heterosexual and a 10 being entirely homosexual. At this point, I don't think she can either.

Unless you are comfortable with the idea of living this way, I urge you to have a very long engagement because it is anybody's guess how this will turn out. The three of you are all consenting adults, so I won't judge. (I can't help but wonder

**DEAR ABBY**

**Jeanne Phillips**

if the spouse of your fiancée's lover knows about the steam they are blowing off.) I must, however, point out that if a traditional, monogamous marriage is what you want, your fiancée may not be the lady for you.

**DEAR ABBY:** I am 15, and in my job I work with some of my cousins and siblings. There are other people, too. I make friends easily because I can talk to everyone.

Everyone I work with says I'm flirting with two guys who are just my friends. I don't want people to think I'm flirting because I'm not. How can I convince people that we are just friends and nothing more? -- **FRIENDLY TEEN IN IDAHO**

**DEAR TEEN:** The individuals who are accusing you of flirting may be teasing you to get a reaction. Or, they may be trying to point out something important that you should keep in mind when you are working. Working with someone is different from hanging out. The relationships are a little more formal (and serious) than in a social environment away from the job.

This will not be your only venture into the workforce, and when you are a little older, you will realize that rules discouraging personal relationships between co-workers, both written and unwritten, are put in place to protect you and the business. So rather than work on convincing "people" that you're not flirting, be your friendly self but in a more professional way.

Second Opportunity to Object  
White Pine project Environmental Assessment  
Nez Perce-Clearwater National Forests  
Palouse Ranger District  
USDA Forest Service

The Palouse Ranger District has prepared a final Environmental Assessment (EA), Draft Decision Notice, and Draft Finding of No Significant Impact for the White Pine project. The responsible official for this decision is District Ranger Stefani Spencer.

Documents are available to review on the Forest Service website at: <https://www.fs.usda.gov/project/?project=54742>. Notice was sent of this opportunity to object to those that submitted specific written comments in response to the 30-day comment period on the proposed action in September - October 2018.

The project area is located in the northwestern portion of Benewah and Latah Counties, Idaho and encompasses approximately 3,000 acres of National Forest System ownership in portions of sections 4, 8, 9, 10, 14, 15, 16, 17, 21, 22, 23, 24, 26, 27, 34 and 35, T43N, R3W, Boise Meridian and portions of sections 2, 3, 11, TT42N, R3W, Boise Meridian. Project actions would include timber harvest, commercial thinning, fuels treatments, restoration planting, and completing associated road activities such as new and temporary road construction, improvement, and maintenance or reconstruction of any roads required to accommodate safe log haul.

The White Pine project is subject to the objection process, pursuant to 36 CFR 218, subparts A and B. Those individuals or entities who previously submitted comments during the scoping and comments period on the proposed action (as defined by 36 CFR 218.2 and 36 CFR 218.5) are eligible to file an objection. Issues raised in objections must be based on previously submitted timely, specific written comments regarding the proposed project. Objections, including attachments, must be filed via mail, express delivery, or messenger service, to Objection Reviewing Officer, USDA Forest Service, Northern Region, 26 Fort Missoula Road, Missoula, MT 59804; FAX to (406) 329-3411; email to [appeals-northern-regional-office@usda.gov](mailto:appeals-northern-regional-office@usda.gov) with White Pine Project Objection in the subject line. In keeping with precautionary measures related to the COVID-19 pandemic, the office is not open at this time for hand-delivered submissions. Electronic comments must be submitted as part of the actual e-mail message or as an attachment in Microsoft Word (.doc or .docx), rich text format (.rtf), or portable document format (.pdf). E-mails submitted to e-mail addresses other than those listed above, in other formats, or containing viruses will be rejected.

An earlier objection filing period for this project was advertised in the Lewiston Tribune on May 14, 2020. Based on the initial review of objections and the project file, the responsible official decided that more clarification was required in the supporting documents and authorized a cancellation and subsequent re-initiation of the objection period. This legal notice announces a second 45 day objection filing period.

Please note that those who objected to this project during the previous objection filing period, advertised May 14, 2020, must resubmit objections. The previous objection process was cancelled by the responsible official on July 28, 2020 and all objections were set aside from review by the reviewing officer on August 5, 2020 pursuant to 218.10 (a)(9). All objections during this filing period that meet the requirements of 36 CFR 218.8 and 36 CFR 218.9 will be accepted. After the close of the second objection filing period, the Regional Office will review and respond to all objections in compliance with 36 CFR 218.26(b).

Objections, including attachments, must be submitted within 45 calendar days following the publication of this notice in the Lewiston Morning Tribune. The publication date in the newspaper of record is the exclusive means for calculating the time to file an objection. Those wishing to object should not rely on dates or time-frame information provided by any other source. It is the objectors responsibility to ensure timely filing of a written objection with the reviewing officer pursuant to 36 CFR 218.9. The regulations prohibit extending the time to file an objection. The objection must contain the minimum content requirements specified in 218.8(d) and incorporation of documents by reference is permitted only as provided in 218.8(b). All objections are available for public inspection during and after the objection process.

At a minimum an objection must include the following (36 CFR 218.8(d)): (1) The objectors name and address, with a telephone number, if available; (2) a signature or other verification of authorship upon request (a scanned signature for e-mail may be filed with the objection); (3) when multiple names are listed on an objection, identification of the lead objector (verification of the identity of the lead objector shall be provide upon request); (4) the name of the proposed project (i.e. White Pine), the name and title of the Responsible Official, and the name(s) of the National Forests(s) and/or Ranger District(s) on which the proposed project will be implemented; (5) a description of those aspects of the proposed project addressed by the objection, including specific issues related to the proposed project if applicable, how the objector believes the environmental analysis or draft decision specifically violates law, regulation, or policy; suggested remedies that would resolve the objection; supporting reasons for the reviewing officer to consider; and (6) a statement that demonstrates connection between prior specific written comments on the particular proposed project or activity and the content of the objection.

Objections that do not adhere to these requirements make review of an objection difficult and are conditions under which the reviewing officer may set aside an objection pursuant to 36 CFR 218.10.
